

LAWSON'S LATEST

THE HENRY LAWSON HIGH SCHOOL

18 NOVEMBER 2016 TERM 4 ISSUE 6

Congratulations to Yongyan Xia. She is this year's recipient of the Victor Chang Cardiac Institute Research Award. Yongyan was recognised for her excellence in Year 11 science at a ceremony in Dubbo along with other students from across the central west. Yongyan's persistence with all learning challenges in her pursuit of deep understanding makes her a very worthy awardee.

At last Friday's Remembrance Day service, our students past and present made a significant contribution to the proceedings. The cadets carried out their duties in the catafalque part, ex-student Kyle Anderson in his role as a member of the RAAF recited the ode and our captains Selwyn and Francesca read *In Flanders Field*, Shannon sang the national anthem and Mitchell lay the floral tribute. Glen Ivins, in his role within the RSL sub branch was highly complimentary of the students' participation, emphasising the importance of sustaining the partnership.

A big thanks to Year 12 2016. Their gift to the school has arrived and been put in place – a welcoming mat in the front foyer.

HSC marking is in the process of taking place, but it too has changed over time. Mr Robinson has returned from marking physics papers. Markers like himself are trained in Sydney for two days, then are able to go home and mark the papers on-line. Just as in the past, the continual checks take place to ensure there is a consistent standard of marking applied across all the papers. Yet again technology and inter-connectedness has made a difference to how things are done.

Years 9 and 10 have been completing their yearly exams this week. Some Year 12 students are out completing a work placement for a vocational learning course, and Years 7 and 8 are focused on their varied learning across their subjects.

It seems a quiet week but a lot happens in the learning spaces every day. Next week the learning across NSW really starts with the first group heading off to Sydney Monday morning, following *Thimbull*, who is being picked up on Friday.

The end of the year is drawing near. The last day of school is Friday 16 December. The annual Presentation Day Assembly will be held on Thursday 15 December, starting at 11.00am. The other date for your calendar is Monday 30 January 2017, when all students in Years 7 – 12 start afresh the new school year.

Margaret Carey

Principal

A Gourmet Event!

Throughout the year, Year 9 and 10 food technology students have honed their food preparation skills by preparing menu items for many school events including staff development afternoons, Education Week morning tea, Year 12 formal dinner, *Kids Teaching Kids* morning tea and Grandparents Day. The team is a cohesive and competent group of students who can work collaboratively to meet deadlines and produce quality food items.

Last Friday it was their turn to enjoy the spoils of their talent. The table was formally set and looked very professional and the students prepared a beautiful two course meal for themselves consisting of quiche Lorraine, scalloped potatoes, garden salad and garlic bread. The meal was topped off with a delicious dessert of deconstructed strawberry cheesecake. It was a thoroughly enjoyable experience and a fitting thank you to these students for their efforts in catering for others throughout the year.

Presentation Day 2016

Parents, carers and friends are cordially invited to attend the 2016 Presentation Day Assembly to be held on Thursday 15 December commencing at 11.00am.

This is the culmination of our school year when we recognise and reward our students for outstanding achievement in academia, sport and community citizenship.

The Henry Lawson High School wishes to thank the community for their continued generous support which enables us to acknowledge our students for their outstanding achievements.

How Much will it Cost?

Registration Fees

- 3 day program \$120 (includes GST)
- 4 day program \$160 (includes GST) Curtin, Edith Cowan, Murdoch, and the Brisbane combined Universities

Please note these fees do not cover any transport, meals or accommodation costs. Refunds are available (minus \$25 administration fee) until 4 weeks before a particular program commences

How do I Enrol?

To enrol, simply select **ONE** of the following

Send your application form to: The ConocoPhillips Science PO Box 158, Monbulk, Vic 3793

_ OR ___

Email your completed application

form to:

What Will I be Doing?

AUSTRALIAN CAPITAL TERRITORY

AUSTRALIAN NATIONAL UNIVERSITY CANBERRA • 21 – 23 SEPT 2016

CANBERRA • 21 — 23 SEPT 2016

Flying model rockets and forensic tests at the Canberra Institute of Technology, Geological mapping and a tour of the Tsunami Early Warning Centre, Gamma-ray radioactivity measurements Jour a particle accelerator, design a self-drive robotic car, test sustainable water filters as well as hands-on practical activities in the major science areas.

NEW SOUTH WALES

MACQUARIE UNIVERSITY SYDNEY • 11 - 13 JAN 2017

Our program features chemistry, biomolecular our program reactures chemistry, tominotecturar sciences, robotics, physics, astronomy, earth and environmental science, ecology, cognitive science, mathematics, computing, medicine, palaeontology and much, MUCH more!

UNIVERSITY OF NEW ENGLAND ARMIDALE * 17 - 19 JAN 2017

Chemistry experiments, DNA extraction, solving crimes, creating and understanding musical instruments, programming computers and biomechanics with sports science activities. We visit Dangar Falls for some afternoon bush walking and nighttime spotlighting. In addition students will have the opportunity to explore the new Natural History Museum

WINDOWN ** 0 - 8 JULY 2010

UNIVERSITY OF NEW SOUTH WALES

SYDNEY * 0 - 8 JULY 2010

Calling all junior scientists! Join the UNSW Science
race and complete a series of science-based activities,
experiments, discoveries, workshops and challenges.
Will you be the next winner of the coveted Science

Date and Yes.**

UNIVERSITY OF SYDNEY SYDNEY • 11 - 13 JAN 2013

Race prize?

Come and give us your best Sherlock impression as you help solve a murder mystery on campus. You will employ real science — through hands-on laboratory sessions and interactive lectures to solve this crime. You will work with your fellow detectives to interview suspects and collect evidence against them.

UNIVERSITY OF TECHNOLOGY

UNIVERSITY OF TECHNOLOGY

SYDNEY = 1.3 NOW 2016

You will experience what it is like to be a UTS Science student as you participate in various hands-on and fun science, maths, and technology activities and explore some of the hottest topics in forensic science, physics and nanotechnology, environmental science, medical science, and mathematical modelling. Check out some of our exciting facilities including the Super Lab and the Crime Scene Simulation House.

University of WolLondon House.

WOLLONGONG * 13 - 15 JULY 2018

Human body, resuscitation, oxygen saturation and the pulse oximeter. Uncover technological developments of ancient cultures, crazy concoctions of chemical combinations and dabbling with DNA. Cooling, melting or boiling, cool physics will uncover all things temperature! Explore the Science Centre and Planetarium.

Now available from our e-library

Friday Jen Kelly

Well-being Corner

"So hold on to the ones that really care; in the end, they'll be the only ones there."

Hanson

Who are the people in your life that care about you most? Probably your parents, siblings, relatives and friends. How can you show you care in return? If you're comfortable giving someone a hug and saying "I love you", go ahead, do it. If that's not your thing, you could send a note or card to express your feelings. Perhaps you could do a special favour for someone you care for – even anonymously if you wish. Let people know how much they mean to you. It will make their day, and yours!

TODAY

I'll show someone I care.

THLHS P&C and Community Quilt Project 2017

The P&C would like to invite you to be a part of our quilt project.

If you like to be social and can sew a straight line or even make a good cup of coffee, why not come along on

Saturday 3 December to the school 10am-3pm for a fun day.

We are going to make a quilt for our major raffle in 2017, to be drawn on festival weekend.

It is designed by a local quilt designer Janelle Noack of *Country Matters Designs* and we are using Moda Nocturne range of fabrics. The quilt is to commemorate the 150th Birthday of Henry Lawson and the 60th consecutive anniversary of the Henry Lawson Festival of Arts.

The fabric chosen and the design and designer used have special links and significances to the project and they will be explained as the project progresses.

If you are not able to come but would like to be involved please contact

Keryl (Fabric Sauce) 6343 1001 or Helen 0428542708.
